

How do I create a user?

To create a new user:

1. Click on the "User's" tab in Smart PBX.
2. Within the "User's" tab, click on the "Add User" button

3. Provide your user's first and last name, email address for login and create a password. You can also create a custom extension number on this screen. Click "Create User" and you're all set.
